The economic environment has been enormously impacted over the last few years on account of significant changes including COVID 19 pandemic. This has caused huge stress for the companies and their valuations have also changed significantly. IBC has been instrumental in bringing about a sea change in the stress resolution architecture in India over the period of last 5 Years. Rolling out of framework for cross border, group and individual insolvency is also being considered. Further, Valuation lies at the heart of all corporate actions. The valuation profession has evolved by the introduction of the concept and regulations for Registered

Valuers. Need to develop Indian valuation Standards is also being contemplated to cater to the changing business perspective for providing realistic, credible, and acceptable valuations.

This program will provide perspectives on the way travelled so far in Insolvency and valuation domain and the way forward.
